BIO

It's not easy to win acclaim as a reggae dancehall DJ on the West Coast. It's even more difficult to win acclaim as a female reggae dancehall DJ – but that is exactly what DJ Green B has done.

In an era when Instagram models, B-list celebrities and reality TV stars dominate the club DJ market, DJ Green B has carved out a lane for herself the old fashioned way: by breaking records, producing mixtapes, and building a reputation as one of the best party rocking DJs on the West Coast.

Starting as a strictly reggae DJ in the early 2000s, a DJ Green B set now includes healthy doses of afrobeats, hip-hop and tropical bass music. Having built a West Coast empire with residencies in San Francisco, Oakland and Los Angeles, she became a national and international tastemaker when she was tapped to host SiriusXM's Dancehall Saturday Night show. This, along with an annual residency on the Welcome to Jamrock Party Cruise, has given DJ Green B a worldwide cache that most other tropical music DJs only dream about.

In 2022, DJ Green B is positioned and poised to take her record making and record breaking sound to another level. With her latest mixtape doing big numbers online and in the streets, and a series of gigs around the world, she is stepping into a new role as a leading tropical music party and festival DJ.
