## CROSS REFERENCE GUIDE FOR IGNITION HARDWARE AND AIRCRAFT ENGINE SPECIFICATIONS

**FORM X44001-2**  
SUPERSEDES FORMS X44001-1  
**MAY, 1994**

# Introduction

This document supersedes publication X44001-1. The application data is consolidated in this document for ease of cross referencing engines to TCM Ignition Systems, TCM Magnetos and Gold Seal Harnesses. Due to the variety of applications for many engines, some changes or re-routing of leads may be necessary. This document is to be used for reference only. Final application authority rests with the engine manufacturer and/or the FAA.

## How to Use This Book

### A. ENGINE APPLICATIONS

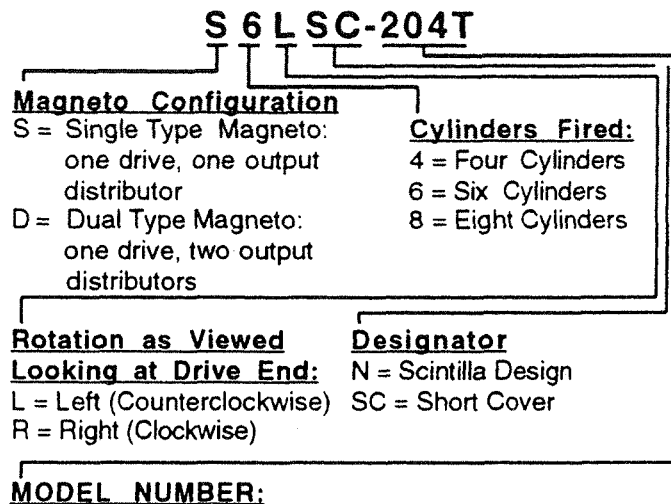

This Application Data is organized so that all options of Magnetos and Harnesses for a given engine appear on one page. The listing is sorted by engine manufacturer, numerically by engine horsepower/displacement number, and then alphabetically by engine prefix and suffix. In cases where all options for a class of engine are identical, engine designator suffices are listed on the same row separated by commas. Otherwise, each horizontal row represents one option for the engine specified.

### B. IGNITION SYSTEMS

Ignition System Kits, consisting of two magnetos and a harness or a dual magneto preassembled to its harness, are specified by part number in the first column following the engine designation. Each kit includes magnetos listed in the same row and the corresponding Gold Seal Harness, enough to supply a complete engine.

### C. MAGNETOS

## G. SC SERIES MAGNETOS

1. The new TCM SC (short cover) Series Magnetos will be supplied on a use stock basis for factory new and factory rebuilt magnetos in place of the S-20 and S-200 magnetos previously supplied. The new SC Series magnetos have the following features:
  - Feed thru capacitor on all specifications of S-20 and S-200 Series Magnetos.
  - Capacitor interchangeable with S-1200 Series.
  - Simplified stud-type switch and retard connections - no special kits necessary.
  - Low profile short cover (SC) allows maximum installation flexibility.
  - Consolidated parts usage.
2. Short Cover (SC) magnetos are fully interchangeable with S-20 and S-200 magnetos previously supplied. Pairing an SC magneto with one of the old type magnetos on an engine installation is permissible. All SC magnetos listed are FAA-PMA approved. Also note that engines with a single impulse coupled magneto (example: Type S4LSC-21, Part No. 10-500514-1) are typically used in conjunction with an S-200 series "straight Drive" magneto (example: type S4LSC-204, part No. 10-600644-1)
3. As many of the older style S-20 and S-200 series magnetos may remain in service for many years, the following cross reference charts are given for your convenience.
